

Dear Professor Know-How:

I would like to say thank you for the amazing time I had in your program. I learned a lot about the earth, and I feel so amazingly empowered from all the knowledge that I now have. My favorite part of our classes is when we got to use the Vandegraph and learn about how the ping pong ball (which has no charge) gets a charge. I also liked using the Tessala. It was-*VERY*- fun. I hope that the kids who also get to go to your classroom have a lot of fun. I wish we had a longer session, but I still had plenty of fun with You, Izzy, Jordan, Gabe, Autinuke, and Josh. I hope you have a lot of fun with your other students.

Sincerely,

Samira Butts
